between computers, for each man-hour begun, net 200 PLN + 22%VAT

Deposit on wireless network device 200 PLN + 22%VAT

3. Internet Access Regulations at Targi w Krakowie Events

Internet access provision to participants during events is principally rendered via wireless IEEE802b network.

Stalls are connected on the day before the event begins, from 5 p.m. to 7 p.m. For efficient service, we recommend that Exhibitors make a prior arrangement for connection date and time and also send to it@targi.krakow.pl the MAC-addresses of wi-fi cards for computers that are to have wireless Internet access during the event. The completion of a connection is confirmed with a written report.

Network cards on lease from Targi w Krakowie can be connected to a computer via USB port or PCMCIA socket. The rental of hardware is documented with a receipt.

The hardware supplied by the Exhibitor for which wireless Internet access is to be provided should have a properly installed wi-fi card with a properly installed TCP/IP protocol. When the Exhibitor leases a network card from the organizer, the computer to have the card connected should meet the following requirements:

- USB or PCMCIA connections,
- Operating system installed: Win 2000 / Win XP or newer,
- Properly installed TCP/IP protocol.

Moreover, the Exhibitor is required to have setup versions of the operating system and communications software installed and used on the computer for which Internet connection is to be provided. Failure to meet the above requirements may result in refusal to install Internet access. Internet access installation is limited to a single instance of

configuration and Internet startup. Any other operations beyond that point shall be treated as technical assistance payable extra and subject to availability of service staff.

Internet service staff is available on Fair grounds on the first day of an event an hour before until two hours after the opening. At other times, any problems with Internet access should be reported to event curator.

Targi w Krakowie shall not be held liable for any disruption in Internet access as may be caused by the participant's hardware and/or software.

Participants who have purchased Internet access may split the signal to their other computers in their stall at no extra charge when they perform the required connections themselves. If such splitting is required to be performed by the Internet provider, an extra fee is charged at list rates.

A routable, public IP address is available subject to prior arrangement. This is a limited offer and is payable extra. If you are interested in this service, please email us at organizacja@targi.krakow.pl prior to the event.

Lease of a network card is effected in the Fair cash desk on payment of deposit.

Please return leased network cards to the Fair cash desk within half an hour of the closing of the event. Should a leased network card be lost or damaged through Customer's fault, the deposit shall not be returned.

Payment

Payment is to be made to the Targi w Krakowie Sp. z o.o. account:

ING Bank Śląski S.A. O/Kraków, IBAN:PL 82 1050 1445 1000 0022 9166 0138. Nr BIC(SWIFT): INGBPLPW
